Diaz Eka Cipta

Fresh Graduate in Information Technology | Enthusiastic Learner |
Problem Solver
Pancoran Mas, West Java, Indonesia

Summary

Hello! I'm Diaz Eka Cipta, a recent graduate with a Information
Technology from University Bina Sarana Infromatika. I am
passionate about technology and eager to leverage my academic
background and hands-on experience to contribute to innovative
projects and solve real-world challenges.

Throughout my academic journey, I have developed a solid
foundation in various IT disciplines, including:
•Web Development: Experienced with HTML, CSS, JavaScript,PHP
(Laravel) and modern framework like React.
•Network Design and Implementation: Understanding of network
topologies, protocols (such as TCP/IP), and configuration of routers
and switches.
•Troubleshooting and Maintenance: Experience in diagnosing
network issues, optimizing performance, and ensuring reliable
connectivity.

During my studies, I worked on several projects that honed my
skills in internal website development. My capstone project involved
building an internal meeting website using PHP programming
language and Laravel framework, which allowed me to apply
theoretical knowledge to practical problems and enhance my
problem-solving abilities.

am keen to work with a dynamic team that values innovation and
continuous learning.

I am particularly excited about opportunities in Web Developper, IT
Analyst(infrastructure) and am keen to work with a dynamic team
that values innovation and continuous learning.

As I embark on this new phase of my career, I am eager to connect
with professionals in the industry, learn from their experiences, and

contribute to impactful projects. Let's connect and explore how we can work together to drive technological advancements!

Feel free to reach out to me at diazekacipta467@gmail.com or connect with me here on LinkedIn.

Experience

PT.Prima Layanan Nasional Enjiniring
Assitant Officer Teknologi Informasi
August 2022 - December 2022 (5 months)
Jakarta Raya, Indonesia

- contribute to the development of websites using the PHP programming language and Laravel framework. This includes understanding development needs and implementing technical solutions to improve website functionality.
- assists in the management of IT Service Management (ITSM), which focuses on the consumer perspective of IT services. This includes the maintenance of information systems to ensure IT services match the company's business needs.
- assisting in the study of Secure Sockets Layer (SSL) and studying the network topology applied at PT PLN Enjiniring. This task includes analyzing network security and understanding the company's network architecture.
- involved in IT operational activities, such as assisting with enhancements to meeting rooms and ensuring IT equipment is functioning properly. This task provides practical experience in supporting the company's technology infrastructure.

Education

Universitas Bina Sarana Informatika
